Employee Discounts

You can offer discounts to your employees for their personal purchases, as part of our group purchasing collaboration with the Western New York Purchasing Alliance (WNYPA) (serving the major area hospital systems); the Greater New York Hospital Association; and Premier, which is a national group purchasing organization. There is no cost to your organization. Employee discounts are available on these products and services:

- Sprint and Nextel telephone service
- Verizon telephone service
- Office supplies and printing services at the 8 area OfficeMax retail stores
- Glidden and other paint at the 3 area ICI Paints retail stores
- Dell home desktop and notebook computers
- Gateway personal computers

To get started, please send this information to gail.calisto@uwbec.org.

- Your name
- Job title
- Organization name
- Street address
- Telephone number
- E-mail address

WNYPA will register your organization within their group purchasing system, and let you know what to do to start offering specific discounts to your employees. Registration is free. If the prices make sense, you can also buy these products and services for your organization.

Once you are registered, you can also review prices on hundreds of additional items that you may purchase for your organization, such as food, janitorial supplies, waste management, express shipping, background checking, document storage, medical supplies and credentialing verification. 21 nonprofits are already registered.
